

Instant ROI & Unlimited Scale

Acquire the Sewbots necessary to scale production as part of a cost-effective rental lease with SoftWear Automation's new Sewbots as a Service plan. The service allows manufacturers to experience the benefits of a fully automated production workline without the heavy upfront capital costs. **Return on investment starts on day one with a per shift cost starting at \$55/shift and up.**

The Benefits

Get Immediate ROI

Instantly reap the benefits of fully-automated manufacturing and begin scaling operations for as little as \$55 per 8-hour shift.

Scale Your Production

Just one operator can manage up to six Sewbots at a time in an 8-hour shift, allowing for consistent production at higher volumes with minimal operator input.

Grow Your High Margin Premium Products

Our autonomous Sewbots enable automation of many basic products allowing your skilled workers to grow the production of high margin premium products.

Service Plan

Sewbots as a Service is available on a rental lease on a world-wide basis through a multi-year contract agreement starting at \$5,000/month for base units.

Lets Talk

We understand that your product has unique features that can make standard automation difficult. As the global leader in full automation for textiles and apparel, we work collaboratively with our customers to address their unique product characteristics.
